

vg\_draw\_rectangle\_from  
\_bottom\_left\_corner

```
graph LR; A[vg_draw_rectangle_from_bottom_left_corner] --> B[vg_draw_hline]; B --> C[vg_draw_pixel];
```

A flowchart illustrating a sequence of three drawing functions. The first function, 'vg\_draw\_rectangle\_from\_bottom\_left\_corner', is highlighted with a gray background. A blue arrow points from this box to the second box, 'vg\_draw\_hline'. Another blue arrow points from the second box to the third box, 'vg\_draw\_pixel'.
